Dynamic Program
with Excellent Speakers

Annual Super Conference on Chiropractic and Pediatrics AND THE International Symposium on the Science, Art and Philosophy of Chiropractic

The ICA Council on Chiropractic Pediatrics and the ICA/FACTS International Symposium on the Science, Art and Philosophy of Chiropractic invite everyone to come to their exciting joint conference for three days of excellent continuing education and wonderful camaraderie in a beautiful environment with sunny skies, shimmering blue waters and miles of pristine white, sandy beaches.

US CITIZENS... PASSPORT REQUIRED!

About the Program

The educational program will include different topics with pediatrics being the primary subject. The pediatric sessions will focus on autism from relationship of vaccines to autism, research, neurological implications of children with autism, chiropractic care and co-management. Other topics on the program include clinical care of the elderly, biomechanics of the CNS, chiropractic philosophy and practice. There will also be two different adjusting technique workshops.

Speakers

A host of excellent speakers with extensive practice experience in specific areas will lecture on topics that will inform, educate and inspire.

- Andrew Wakefield, MD
- Lora Tanis, DC, DICCP
- Laura Hanson, DC, DICCP
- John Maltby, DC
- Deed Harrison, DC
- Joan Fallon, DC, FICCP
- Kara Heying, OD, FCOVD
- Janet Cuhel, DC, DICCP
- Rob Sinnott, DC, DPhCS
- Brad Poock, DC, DPhCS
- Kristie Middendorf, MS, OTC
- Jason Yusavage, DC, DICCP

A Sampling of the Topics

- Vaccines and autism, what the research shows
Andrew Wakefield, MD
- Neurological implications of children with developmental delay
Laura Hanson, DC, DICCP, NDT
- Chiropractic's role in the care of children in the autistic spectrum
