

PAIN FREE ZONE

"The Erchonia Laser is changing the way I practice chiropractic, and opening doors to patients with limited health care options. It has truly taken the lid off my practice, we have no limits now."

– Dr. Steve Thaxton D.C.

Give your patients the relief they deserve. Contact Erchonia to find out more about this proven technology.

Your patients can enter the "Pain-Free Zone" with Erchonia's new low-level laser technology.

Proven through two double blind studies, our lasers made history becoming the first low-level lasers to receive FDA approval for the treatment of chronic pain.

VPII Percussor

- Deep & superficial facial release
- Trigger point therapy
- Spinal correction
- Extremities from TMJ to plantar fasciitis
- Cranial corrections
- Visceral manipulations
- Adhesion & scar tissue release

VAII Adjustor

- Cervical, thoracic, lumbar, and pelvic adjusting
- Disc corrections & rib fixations
- Cervical curve restorations
- Reflex adjusting
- Useful for most any adjusting technique
