WHAT THEY SAY

Twelve years ago, I went to the first ICA pediatrics conference that fueled my passion for pediatrics. Our office is now 40% kids and I still go to the conferences. Without fail, every conference I have gone to has brought my confidence up another level in working with kids. And with all the Council Diplomates sharing their knowledge and experience, the conferences just keep getting better and better. Thanks for all the years.

Kevin W. Ross, DC
Tempe, Arizona

I always go the ICA Pediatrics Conference expecting the very best and I always find it. They have the best presenters and program anywhere. It is great to be surrounded by doctors who have the deepest respect, commitment and love for our profession, our patients and each other.

Trish Kloor, DC, DICCP
Westminster, Colorado

The Annual International Conference on Chiropractic & Pediatrics is one I never want to miss. Every session is packed full of useful information on chiropractic pediatrics. I utilize this information in my practice and share it with my interns.

Charlotte Watts, DC
Professor Ob-Gyn/Pediatrics
Parker College of Chiropractic
