Also available: Business owner policy, disability, life and health.

In the real world of professional health care delivery, malpractice insurance should be more than just a service that you purchase. With ICA's ChiroSecure program, DCs receive a partner dedicated to your professional success.

At ChiroSecure we speak your language. It is the only liability insurance company where you can speak directly to another chiropractor about your policy.

For 14 years, ChiroSecure has been operated by dedicated members of the ICA who procured the best professionals in the insurance industry to create an affordable program for doctors of chiropractic.

ChiroSecure provides SECURITY not just insurance. You can't have SECURITY if your insurance company isn't highly rated; you can't have SECURITY if the program is not well managed; you can't have SECURITY if you don't agree philosophically with the insurer.

ChiroSecure's program serves the needs of today's busy practitioner. Best of all this program is available to ICA members as well as non-members at competitive rates.

Stuart Hoffman, D.C. • President, ChiroSecure

ACTION!

fare of our patients. It is ICA's intent to expose the peril in which these companies place chiropractors and our patients by their restrictions. I will be asking for the participation of every ICA member by their providing the ICA with information concerning problems they have had with the managed care system. Michigan and California have already been involved in this battle, California for more than a decade. If you would like to participate in this important effort, contact me at jmaltby@verizon.net.

Next, the CCE has asked for input from the profession in revising their standards. ICA has established a working group that will involve a broad spectrum of participants, including representatives of the educational community, field practitioners and other experienced individuals to review and recommend changes to the present standards established by CCE. I recently attended a strategic planning session for the CCE. Though the contents and discussion during the meeting were confidential, let me say that the ICA's opinions were expressed and welcomed by many of those in attendance. I feel that this is a first step in opening dialogue with the CCE. We can't gripe if we don't show up. ICA showed up.

ICA's Legislative Committee is as busy as ever defending chiropractic from the continued onslaught by the physical therapists. ICA is the only national chiropractic organization fighting to protect chiropractic from the well-organized and heavily funded campaign to extend PT scope into chiropractic procedures. ICA has

- Offered extensive testimony before state legislative committees on PT legislation
- Published a detailed white paper on chiropractic vs. PT's

dents graduated in September 1985.

After the opening of the Irving campus, enrollment increased dramatically and the college moved to a larger campus in Dallas in September 1989. In September 1993, enrollment had reached 1,000 students, making it the third largest chiropractic college in the world. The original Irving campus was converted to a chiropractic wellness center where patients continue to receive chiropractic care.

ICA is the only chiropractic association that has a formal affiliation status for educational institutions. Parker College joins Palmer College in Davenport, Palmer West, Life University, Life Chiropractic College West, Cleveland Chiropractic College Kansas City and Cleveland Chiropractic College Los Angeles as affiliated chiropractic educational institutions. Three representatives from the affiliated colleges sit on ICA's Board of Directors and have major input in ICA priorities and direction.

ICA has enjoyed a strong and positive relationship with Parker College over the years. In fact, Parker is the only chiropractic college that automatically signs up every student as an ICA member so that they may have the benefit of member communications and publications during their educational experience.
