## IRIS 2.0 Digital Image Management Software

- Import
- Mark
- Enhance
- Print
- Send

IRIS 2.0 software for Windows is the low cost solution for all your digital images. IRIS will import images from digital cameras, video clips and even DICOM images from the new digital x-ray systems.

Network support is available for viewing from any computer. Will handle multiple doctors with fully HIPPA compliant security.

Use IRIS to expand the capabilities of the digital technology you are already using. It will even handle ROM exams and video golf swing analysis. See IRIS online right now at [www.posturepro.com](http://www.posturepro.com)

### Brochure Pro

Instantly Print an Unlimited Number of Tri-fold Brochures

Select from 87 Different Topics

Each Professionally Illustrated and Edited

Why pay a fortune for quality brochures when you can pay one low price and print 87 different brochures, forever! Brochure Pro is the perfect solution for the high cost of office patient education.
