ICA Council Publishes Pediatrics Textbook by Dr. Peter Fysh

Hot off the press is a new textbook on Chiropractic Pediatrics. Authored by Dr. Peter Fysh and published by the ICA Council on Chiropractic Pediatrics, *Chiropractic Care for the Pediatric Patient* could very well become one of the bestsellers among chiropractic clinical textbooks. According to many who reviewed the book it is not only excellent, it is superb.

Dr. Fysh is a world-renowned pediatrics instructor, author, and subluxation-based chiropractic practitioner in Sunnyvale, California. A strong advocate of chiropractic care for children all his professional career, Dr. Fysh's slogan "Kids Need Chiropractic Too!" is known and echoed throughout the world. Professor Emeritus of Palmer College-West, Dr. Fysh is Vice President of the ICA

Council on Chiropractic Pediatrics.

"We are very proud and honored that Dr. Fysh published this book through the ICA," said ICA President Dr. D. D. Humber. "This is a landmark publication and will be an invaluable resource for students as well as practicing doctors of chiropractic."

"This is a book that is in a class by itself," said Dr. Joan Fallon, President of the ICA Council on Chiropractic Pediatrics. "As a practitioner caring for kids I can say without hesitation that this is the most comprehensive book on chiropractic pediatrics out there. It is written by a chiropractor for chiropractors. Thank you Peter for this tremendous contribution to chiropractic pediatrics." (See ad on page 23 for ordering information).
