

# FIND OUT HOW FATS AND OILS AFFECT MENTAL AND PHYSICAL HEALTH AS THE BODY GROWS AND AGES.

*"Anyone reading this extraordinary book will take away the profound message that we have much more control over our health through proper diet than one recognizes."*

JEFFREY BLAND, MD

**Brain-Building Nutrition** is an excellent book for anyone who wants to know how to take control over one's health or know more about how certain fats and oils affect the mind and the body. The information in this book will be of interest both to the doctor and the patient.

Author Dr. Michael Schmidt (*Beyond Antibiotics*) explains how dietary fats and oils affect mental, physical and emotional intelligence. Chapters discuss the implications of a brain made

up of 60% fat, fats that form the brain, harmful fats and oils, critical periods throughout life, how to protect the brain against neurological disease, feeding the mind and body with the best fats and oils, the low fat diets and the pursuit of balance.

## Pediatric Forms on CD-ROM 29 Forms You can Use Again and Again

### GENERAL FORMS

- Pediatric new patient information
- Pediatric regular office visit

### AUTO ACCIDENT FORMS

- Pediatric auto accident history
- Pediatric physical exam post MVA

### GROWTH CHARTS

- Boys/Girls 2-20 years height and weight
- Boys/Girls 2-20 years body mass index
- Boys/Girls birth-36 months length and weight
- Boys/Girls birth-36 months head circumference
- Boys/Girls weight for height

### HISTORY FORMS

- Birth history
- Pregnancy history
- Newborn/infant/pre-school/school-age history

### NEUROLOGICAL EXAM FINDINGS

- Developmental milestones & neurological exam forms

### PHYSICAL EXAM FINDINGS

- Newborn/Infant/Pre-School/school-age physical exam

## VIEW FROM CAPITOL HILL

continued from page 9

care budget. Chiropractic has the opportunity, and one might also say an obligation, to demand fairness for those hundreds of thousands, if not millions, of people who cannot or choose not to take drugs for religious, philosophical or personal health reasons. The debate over the drug issue is also a perfect place to showcase the unique drug free nature of chiropractic and to promote a better understanding of the clinically powerful and highly cost-effective nature of chiropractic care. Chiropractic cannot lose both in the short term and in the long run if the profession mobilizes and acts with energy and determination. Equally important, the contacts you make now are part of a foundation for chiropractic's legislative future. What chiropractic needs is for **YOU** to have a personal relationship with **YOUR** Member of Congress. If you don't have one, **NOW** is the time to start.

The window of opportunity is beginning to close in this Congress. Attention is already shifting to the states and districts as all House Members and a third of the U.S. Senate focus more and more on the upcoming November elections. You have a rare opportunity, with Medicare issues on the table in Congress and candidates looking for support in their receptive constituencies, to make chiropractic's impact felt. Rep. Lewis has recently circulated a new "Dear Colleague" letter asking all in the House to join him in co-sponsoring this key bill and Rep. Ed Schrock (R-VA), has also sent out a "Dear Colleague" lending his support to H.R. 2284 and asking for bi-partisan support for this chiropractic initiative. Ask your House Member to join these Congressional chiropractic supporters as a co-sponsor of H.R. 2284 and to support any provisions to enhance the status of chiropractic in the Medicare program that might come forward as a result of ICA's negotiation efforts with the committees of jurisdiction in the Congress.

Model letters for patient and DC alike are available on ICA's website at [www.chiropractic.org](http://www.chiropractic.org). So are descriptions of the bill and arguments why it is sound public policy. Make use of these resources. Do your part. Congress will only act if you do.

**RANDY TATE** is ICA's chief legislative strategist and is very familiar with the workings of Capitol Hill. He is a former Congressman representing Washington's 9th district from 1995-1997. As a member of the House Transition Team he served as a Republican Deputy Whip for House Majority Whip Tom DeLay. Mr. Tate also served in the Washington State House of Representatives from 1989-1995. At age 22 he was the second youngest person ever elected to the Washington legislature.
