practic societies. There is no consensus. There will be no consensus. The profession can only be further divided and eroded by insisting on continuing with the publication of this now deeply controversial and demonstrably flawed document.

ICA calls on the CCGPP to find the courage to do what is right for the chiropractic profession. The whole world of chiropractic is watching, and this increasingly united chiropractic world will hold those who harm the profession through such actions accountable.

ICA also calls on every doctor of chiropractic in the world to stand firm! Make your voice heard on this and other vital practice rights questions. Act individually or act with ICA as part of a global community mobilizing like never before to defend and promote the philosophy, art and a science of chiropractic as a unique, powerful and highly effective care pathway. We have endeavored for more than a century to build the chiropractic profession on high ground, with deep concern for clinical effectiveness, patient safety and out of a deep awareness of the unique gift chiropractic can bring to an ailing world. ICA is committed to holding that high ground!

ICA is making a positive impact on the future of Chiropractic by telling the TRUTH of Chiropractic around the globe. How can you help make a more powerful positive impact on the future of chiropractic? By joining us in spreading the word. ICA will continue to fight the battle and spread the word defending your right to practice chiropractic. Join the association that is not afraid to step forward and take a stand. Join the ICA today!
